Narrative drafted by AI, for a person to check before filing: The subject is a partnership account ending b7f20. [E1] During the period checked, it sent $42,809 in 7 payments to 6 accounts and received $569 from 1 account. [E1] 5 of the 6 accounts involved had not previously dealt with the account. [E3] The receivers passed 100% of the money onward within 24 hours, with 4 onward transfers reported. [E4] Further down the chain, $784,793 left in 1 hard-to-trace cash payment. [E5] This pattern raises concern because funds moved rapidly through new counterparties before a cash exit, while the supplied evidence does not establish the business purpose. [E1, E3, E4, E5]
