Verification steps

- Obtain invoices or contracts for the new counterparties.
- Check for a seasonal or month-end business reason for the volume.
- Check KYC for a cash-intensive business, such as retail or hospitality.

Narrative drafted by AI, for a person to check before filing: The subject is a partnership account ending in b7f20; the evidence does not provide the legal name or location. [E1] During the period checked, the account sent $42,809 in 7 payments to 6 accounts and received $569 from 1 account. [E1] Five of the 6 involved accounts had not previously dealt with the subject account, and the account made 7.0 payments a day compared with its usual 3.0 a day. [E2, E3] Further down the chain, $784,793 left in 1 hard-to-trace cash payment, but the evidence does not identify the paying account or confirm a link to the subject account. [E4] The pattern warrants review because it involves multiple new counterparties and a reported cash exit; the evidence does not establish the purpose of the transfers or prove wrongdoing. [E1, E3, E4]
About the totals: “$42,809 in 7 payments” counts every payment Account A sent between 9 Sep 12:00 and 9 Sep 20:16 UTC, including 2 payments that were not flagged. The case's flagged payments total $42,803 in 5 payments.
